

Symposium « Intracellular Trafficking in Neurons »

Satellite Meeting of the 12th Meeting of the French Neuroscience Society

Organised by

Organisers:

Claire Desnos, Paris, France

Lydia Danglot, Paris, France

Nicolas Vitale, Strasbourg, France

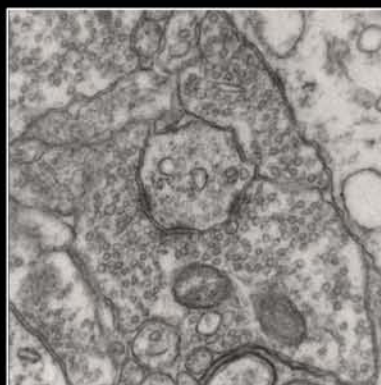

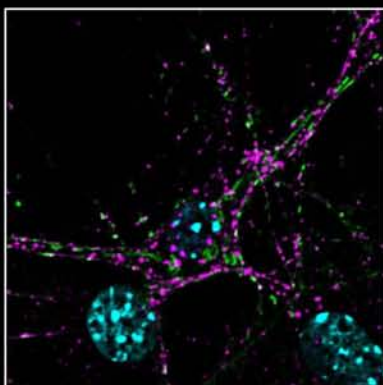

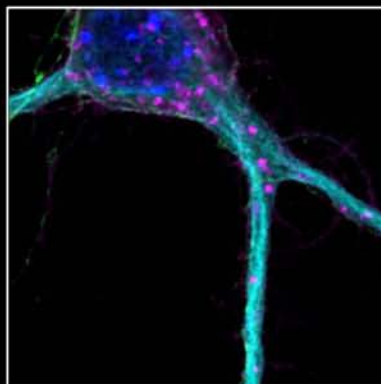

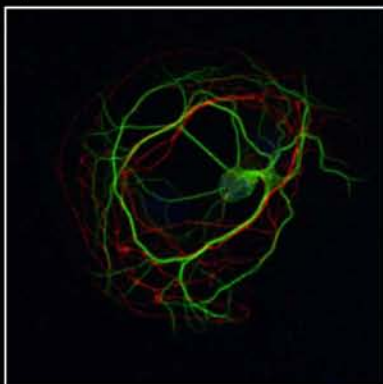

Sara Salinas, Montpellier, France

Montpellier

Faculty of Medicine, Room Duges

May 19th, 2015 14h-18h30

Free Entrance-registration before May 1st to sara.salinas@igmm.cnrs.fr

Invited Speakers :

C. Dotti *On the mechanisms of cognitive decay in the old: the role of age-associated changes in plasma membrane cholesterol* (Centro Severo Ochoa, Madrid)

M. Fainzilber *Bidirectional traffic control for neuronal growth regulation* (Weizmann Institute of Science, Rehovot, Israel)

M. Matteoli *Synaptic protein networks in psychiatric diseases* (Dipartimento di Farmacologia, Università degli Studi di Milano)

F. Varoqueaux *Basis of neuronal communication in Trichoplax adhaerens* (Université de Lausanne, Suisse)

J.L. Bessereau *Punctin, an anterograde synaptic organizer of post-synaptic domains* (Université Claude Bernard, Lyon)

T. Galli *Conventional and unconventional secretion in neurite growth* (Institut Jacques Monod, Paris)

D. Perrais *Imaging of single endocytosis and recycling events in neuronal dendrites* (Institut des Neurosciences, Bordeaux)

F. Saudou *Huntingtin and the control of axonal transport* (Institut des Neurosciences, Grenoble)
