

## Guidelines for abstract submission

Abstract specifications are also available on the abstract submission website.

### Introduction

PhD students, Post-docs and researchers / assistant professors (recruited for less than 5 years) may be selected for an oral presentation in a symposium.

If you are interested, please send your abstract until **25 January 2019** and note that after this deadline, you will not be able to work on your abstract anymore.

Deadline for abstract submission (poster presentation only): **25 February 2019 included**.

Reminder: the first author of an abstract must be registered at the meeting and can only be first author on one abstract. However, authors can be co-author on several abstracts.

Invited speakers must be first author on the abstract of their presentation.

By submitting an abstract, the authors certify that their work complies with the ethical guidelines for human and animal research.

It is the author's responsibility to submit a correct abstract. Any errors in spelling, grammar or scientific fact will be reproduced as submitted by the author.

The French Neuroscience Society (Société des Neurosciences) cannot be liable for the content or accuracy of the information provided in the abstracts.

### Abstract specifications

#### Abstracts must be in English.

Prepare your abstract with your usual word processor; you will be able to copy-paste the title and text in the abstract submission form.

#### Abstract title

The title should not be in capital letters except for the initial letter and any standard abbreviation.

#### Abstract body

The text should not exceed **2300 characters**, including spaces.

#### Tables and graphs

Tables are accepted. You can upload up to 3 tables. Each table should not exceed 10 rows x 10 columns. Each row of the table will be counted as 100 characters against your 2300 characters total.

Graphs are accepted. You can upload up to 3 graphs. Each graph is counted as 400 characters. The maximum file size of each graph must not exceed 500 KB. The maximum pixel size of the graph is 600 (w) x 800 (h) pixel. You may upload graphs in JPG, GIF or PNG format.

## Themes

Select at least one theme among the following list:

1. Development, synaptic plasticity
2. Signalisation, cellular communications
3. Neurological and psychiatric diseases, experimental therapeutics
4. Integrative neurosciences, sensory physiology
5. Neuroendocrinology, neuroimmunology
6. Behaviour, emotions, cognition, neuroethology
7. Theoretical and computational neurosciences

### **Notification of acceptance or rejection**

There is no evaluation process. However, organisers may refuse an abstract that would not conform scientific deontology.

### **Abstract cancellation**

Abstract withdrawal can be requested by e-mail to [abstracts-colloque-NF2019@kit-group.org](mailto:abstracts-colloque-NF2019@kit-group.org). Please state your name and abstract number in the message.

Withdrawal of an abstract without cancelling registration does not entail refund of the registration fee. Only first authors are allowed to withdraw an abstract.
